GET THEM BACK IN THE GAME

Drug-free. Surgery-free.

When injuries happen, addressing the inflammation and speeding up recovery time is paramount. Non-invasive deep tissue laser therapy helps with both short-term pain blocking and improved long-term function.

Find out why over 200 pro and college sports team use LightForce® Therapy Lasers to get their athletes back in the game faster.

IJSPT

is a bimonthly publication, with release dates in February, April, June, August, October and December. It is published by the American Academy of Sports Physical Therapy.

ISSN 2159-2896

INTERNATIONAL JOURNAL OF SPORTS PHYSICAL THERAPY

IJSPT

is an official journal of the International Federation of Sports Physical Therapy (IFSPT).
TABLE OF CONTENTS
VOLUME 15, NUMBER 2

SYSTEMATIC REVIEW/META-ANALYSIS
175 Effect of Aerobic Exercise Training With and Without Blood Flow Restriction on Aerobic Capacity in Healthy Young Adults: A Systematic Review with Meta-Analysis.

ORIGINAL RESEARCH
188 Posterior Shoulder Tightness and Subacromial Impingement Characteristics in Baseball Pitchers: A Blinded, Matched Control Study.
Authors: Launder K, Wong R, Latal J, Meister K
196 Changes in Infraspinatus and Lower Trapezius Activation in Volleyball Players Following Repetitive Serves.
Authors: Khal KM, Moore SD, Pryor JL, Singh B
203 Test-Retest Reliability of the Closed Kinetic Chain Upper Extremity Stability Test (CKCUEST) in a Modified Test Position in Division I Collegiate Basketball Players.
Authors: Hollstadt K, Boland M, Mulligan I
210 Comparison of Cryotherapy Modality Application Over the Anterior Thigh Across Rugby Union Positions; A Crossover Randomized Controlled Trial.
Authors: Alexander J, Rhoades D, Birdsell D, Selvec J
221 Is Step Rate Associated with Running Injury Incidence? An Observational Study with 9-Month Follow Up.
Authors: Szymanek EB, Miller EM, Weart AN, Morris JB, Goss DL
229 Comparative Analysis of Hip Muscle Activation During Closed-Chain Rehabilitation Exercises in Runners.
Authors: Connelly CM, Moran MF, Grimes JK
238 Reliability and Validity of The Hip Abductor Isometric Endurance Test: A New Method to Assess the Endurance of the Hip Abductors.
Authors: VanCant J, Detrembleur C, Mahaudens P, Feipel V
246 Eccentric Hamstring Strength is Associated with Age and Duration of Previous Season Hamstring Injury in Male Soccer Players.
Authors: Vicens-Borgas J, Esteve E, Fort-Vanmeerhaeghe A, Clausen MB, Bandholm T, Opar D, Shield A, Thorborg K
254 Analysis of Timing of Secondary ACL Injury in Professional Athletes Does Not Support Game Timing or Season Timing as A Contributor To Injury Risk.
Authors: Zhou J, Schilaty ND, Hewett TE, Bates NA

CASE SERIES / REPORTS
263 An Exploratory Case Series Analysis of the Use of Primal Reflex Release Technique™ to Improve Signs and Symptoms of Hamstring Strain.
Authors: Albertini ES, Walters M, May J, Baker RT, Nasupyany A, Cheatham S
Authors: Sillevis R, Shamus E, Mouttet B

CLINICAL COMMENTARY / SUGGESTION
287 Rehabilitation Considerations for Spondylolysis in the Youth Athlete.
Authors: Selhorst M, Allen M, McHugh R, MacDonald J
301 Past, Current and Future Interventional Orthobiologics Techniques and How They Relate to 3 Regenerative Rehabilitation: A Clinical Commentary.
Authors: Centeno CJ, Pastoriza SM
326 Criteria-Based Return to Sprinting Progression Following Lower Extremity Injury.
Authors: Lorenz D, Domzalski S
We believe in Powering Motion. Activity is the key to living a healthier lifestyle, better treatment outcomes, and improved healthcare economics for all. We do this by delivering a complete Orthopedic Continuum of Care from performance and mobility to surgical intervention and post-operative rehabilitation. Get and keep people moving—that’s our philosophy.
